sibnm067_00000000-textExtract--Stored E-mails.pst.txt

To be discussed.

Â

When are you publishing TORs?

Â

Through me please - and then I can bring in the inner circle, discuss requirement, support arrangements etc.

N1786 ,

Â

Thanks very much. You have me at a disadvantage re: audit trail / provenance etc, but your implication, if I have got it right (inter-unit?) is disappointing as you say. Awkward RiP?

Â

Regards

Ack.

Â

I'm not going to do anything by way of notification of

sibnm067_00000000-textExtract--Stored E-mails.pst.txt

staff here, etc etc until I receive your TORs.Â But rest assured of course that you will have my full support, and that of the SU

Â
Name
Given

has come back to me this afternoon with an update on his own review of TTPs; I'll continue to command/mentor him through that process.

Â
As you say, there are a number of possible places / people to involve in your part of this.Â I discussed this briefly with DSF but we would wish to continue the discussion about a programme.

Â
The audit trail for this - as laid out by DSF in telcon - has surprised and profoundly disappointed me.

Â

Â

Â

Â

What a last twist before EOT.

A

Had

a further discussion with N1466 / COS. I have not yet seen finalised TORs for

me, but we are in agreement that it is about TTPs, their efficacyÂ and the INS reaction / exploitation of them etc. More importantly, I think they should say that I am in support of your own study to examine the TTPs.

Â

My

current plan is to come out on the Thu 14 Apr [Redacted] Flight with N1141. They wanted me out sooner, as I have to have reported by COP 20 Apr. I have said that

I do not want to be 'poking around' in SU1 without N1141 present -Â and anyway, I see him as my primary interlocutor - not the SU1A lads. I have also made clear I do not want to disturb N1141 whilst he is on R&R - (their initial suggestion).

Â

IÂ think the TORs will include a visit to the [Redacted]
CO APU1 - grateful for any assistanceÂ you would be willing to provide. I

sibnm067_00000000-textExtract--Stored E-mails.pst.txt
will clear all movement / authorities through you - and remain in sp of your own
study.

Â

Does
this suit (as much as it can do under the circumstances)?

Â
