29	REMARKS	<p><b>OC's COMMENTS:</b></p> <p>This was a successful operation that involved a considerable amount of [REDACTED] Target Development (TD) in order to ascertain the target Pattern of Life (PoL) and Bed Down Location (BDL). The operation was conducted in an area notorious for its inhospitality toward ISAF and resulted in eight EKIA and nine detainees from both the Compound of Interest (Col) and several associated compounds. The [SU1] showed good agility, clearing a total of four compounds after several runners were identified during the infil. [REDACTED] We wait to see if Obj 9 was one of EKIA or one of the detainees [REDACTED]</p>
