OP NORTHMOOR POLICY NOTE – 03/17: OP NORTHMOOR STRATEGIC DIRECTION – CYBER PRIORITIES

Reference:

A. Op NORTHMOOR TORs (Revised) dated 15 Nov 16.
B. Independent Review Team Report dated Wed 25 Jan 17.
C. Policy Note 01/17 Op NORTHMOOR Strategic Direction dated 6 Mar 17.

1. Op NORTHMOOR has been identifying relevant systems that could hold data that may provide evidential material that either supports or refutes the allegation of unlawful killing.

2. In accordance with Refs B&C, a high priority effort is to recover Data Sets by consent and not seizure in an effort to identify relevant material (data sets cannot be seized at this time due to the lack of evidence to support the allegation of unlawful killing). Op NORTHMOOR has been provided with the operational server in use at the time and material from the HQ of the unit concerned.

3. The purpose of the Interim Forensic Data Handling Capability is to focus on the searching for relevant evidential material, as defined by the SILVER Comd, from the operational server within the scope of the TORs (Ref A). The priority being Team 1 investigations.

4. These priorities should not be changed without the express permission of the undersigned or the SILVER Comd.

Summary

5. The cyber effort is to focus on providing a system that will enable investigators to search for relevant evidential material from the Operational Server.

6. Any issues concerning the content of this policy note should be referred to the undersigned.
