Pip,

Please see below from Capt Wright, I acknowledge the short deadline and that you are on AT at the end of next week, so please make this your priority. Please note the SIO wants your initial thoughts by COP Fri, therefore, please make this by lunchtime.

I will call shortly

Kind regards

Subject: 20170125-Op_NORTHMOOR_Data_Search_update_SIO-OS

Mark,

Please have Pip provide a comprehensive brief on what has been achieved in Collingwood to date (this is all about what relevant material we have found). Also, I will need a brief on the main outcomes from her (and by others) searches in HQ DSF when we had the restricted view through Net Reveal.

Following the mood music today, I suspect that we may not get ITS1 anytime soon and perhaps not at all. I want to demonstrate the need to recover it – evidence that we have found relevant material on the SFHQ(A) server will help but also that we found key information on ITS1 when we looked; I will need to include any significant finds whether that be documents or email. I know that relevant information has been found on both, I just need to put into a brief.

The bigger argument is that HQ DSF are unable to segregate the AFG data and therefore we need to recover the whole thing, a COA that HQ DSF do not support.

I would like this pretty quickly but realise it may well be a big piece of work for her; the flash to bang for us will be fairly rapid I suspect so initial thoughts to me before COP on Fri with more time next week. She may well need to do some extra hours and have some help; Cookie can assist from this end next week. I expect I will be asked for evidenced based responses in short order on why I deem it necessary to recover the whole system.

I'll be in after the AFT...I may need a lie down!

Kind regards,

Jason
