Leighton,

PSB/PFA. I think all of this sits with you in your CPERS work.

IIA906 followed this up with a phone call asking for agreement on his comments and any additional ones, by exception by NLT 1200 hrs 6 Dec 17. Therefore can I have your views by NLT 1100 hrs tomorrow?

Regards,

Maj Colin Wilkinson | ExO | HQ PM(A) & HQ 1 MP Bde | 2nd Floor | Zone 5 | IDL 431 | Ramillies Bldg |

Brig David,

I am about to respond to the systemic issues working group following the email below (comments in red by me for the new Army Inspector).

Army Inspectorate response:

agree the course of action proposed;

continue to support the systemic issues working group (Deputy Inspectors have previously provided support to the meeting by attendance and reviewing allegations);

and offer to assist by conducting a further full review as necessary (late 2018 or latest 2019), noting this should be more than a simple refresh of the CPERS work.

Noting that you are the subject matter expert do you have any other comment at this time.

Please do not hesitate to contact me if you need any other info.

Regards,

IIA906

We urgently need to make some decisions on systemic issues, if we are to get the annual report published by the end of 2017. Unfortunately, the sheer number of allegations and variable particularisation have necessitated an inordinate amount of work by IIA339 to get them into a state in which we can do anything sensible with them. She has been working with the information provided by over 550 IHAT complainants and over 100 Northmoor complainants, who between them make well over over 7,500 separate allegations.

- From IIA339's work, I have identified the following 12 clusters which I recommend that the Review Group should examine, or at least consider clarifying with the relevant subject-matter experts:
