Martin

Op. Northmoor - Conflict of Interest Policy

I've read the document which is typically military and over bureaucratic in my opinion. The CoI principle could be captured in a much concise way without losing anything. A couple of more specific points

1. From the perspective of a newly appointed member of staff to Op Northmoor what are 'relevant interests?' If the individual is unaware that something might create a conflict of interest how can he/she be expected to declare it.

***On appointment**. On notification of assignment to or employment within Op NORTHMOOR all staff will be asked to declare any relevant interests. Upon assumption of appointment, a formal declaration of interests should again be made and recorded in the Op NORTHMOOR Register of Interests held by the OC.*

2. The Op. Northmoor register of conflicts of interests has the potential to be a highly sensitive document. Who has access? when? and for what purpose? This issue might also extend to including references to CoI in the minutes of meetings which is a proposal within the draft.

***Register** – The register is where details of the existence of possible or potential conflicts of interest are formally registered*

CoI,

Conflict of Interest Policy

As requested at the last CRP, I attach the mature draft of the CoI policy for your consideration.

We already have a recusal policy in place and this would merely enhance this with the added surety of oversight by the CRP.

Could I have your views by CoP 27 Aug as this is the key document before I submit a Form 3 relating to the MPS interviews discussed at the CRP?

Draft CRP ToRs

Could I have these electronically? I wish to propose a couple of minor amendments.

John
