Hello Pip,
I'd not seen your message prior to this. It's different for units in theatre, but for you to task us directly was fine.

Provides details of the difficulties in providing the RMP with the necessary FMV footage.

From: SIB RMP-OP-NORTHMOOR-SInv2 (McLean-Inglis, Pip SSgt) [mailto:SIBRMP-OP-NORTHMOOR-SInv2 Contact details

To: Role Given
Cc: Role Given
Subject: FW: 20140910-OpNORTHMOOR_Imagery

Also Name Given

Is it ok with me coming directly to you for this or do you need me to e-mail someone else in the CoC?

Prepared for OPEN publication in relation to the Independent Inquiry Relating to Afghanistan

Regards

Pip

Hi Name Given

Thank you for your response.

Just for a bit of background - this imagery is required for a high profile investigation into allegations made by former UK detainees that are of an extremely serious nature. Normally we would send in a CSI to photograph and video the scenes; but obviously this is not possible with the current situation and drawdown. If you need any further information in to the investigation, the Deputy Senior Investigating Officer (DSIO), N73 said he would be more than willing to provide what he can. I have CC'd him in to this e-mail and his contact number is Contact details

We have two different grids approximately NG KM apart:

1) Grid Ref (this is an area of 3 compounds Location Given),

2) Grid Ref (which is just a single compond).

Mclean-Inglis asks for different types of FMV footage

With regards to the distance, we are happy to go with your recommendation of a NG m radius of the grids provided.

We would like the images to still have the metadata displayed, this is so we can prove that it is the location / compounds of interest. If this makes the imagery *, this is fine as most of the data regarding this investigation is at these levels.

I hope this makes sense. Please e-mail me if you need anything further.

Regards

Pip

Hello SSgt,
Thanks for your e-mail.

Provides a list of the type of FMV footage available and asks McLean-Inglis what specific requirements she has.

Good afternoon ,

I have been passed your contact e-mail address by Name Given ISTAR LO, (see e-mail below) and hoping you can assist with which platform would be the best for what we require. I couldn't find the others he had CC'd in to the e-mail.

We are currently working on Op NORTHMOOR, which is the investigation of complaints made by former UK detainees of alleged abuse and ill-treatment.

The exact location of one of these complaints has been identified and we are after imagery

Prepared for OPEN publication in relation to the Independent Inquiry Relating to Afghanistan

of the compounds and the immediate vicinity.

Could you please advise?

We are also aware of the draw down from theatre, so as such could you also provide us with your withdrawal dates.

Many thanks

SSgt Pip Mclean-Inglis

Ma'am.

Capt Wright has been in touch with me to advise on a suitable platform to obtain hi-resolution imagery for one of his tasks. I outlined the choices to him and have cc'd here the relevant contact details.

There are 2 options available for theatre imagery:

Outlines one option for the imagery

Outlines the second option for the imagery

Not knowing the full details of the task, I would recommend speaking to each Unit to see which can provide the best result,

If you require any further assistance, please do not hesitate to get in touch.

Rgds,

Name Given
