Title

TEAM 1 SIO SECRET POLICY DECISION - S07/01

Policy Text

INTEL / STATISTICAL DEVELOPMENT

Decision:

N1466 has provided information that indicates a series of like conduct that could include suspected murder and / or other matters of criminality.

Key to understanding this series is being able to compare and analyse data and material which is relevant.

We must get access to that material which in the main, will sit on the SFHQ(A) server.

SPCB3C should be tasked to harvest this information as soon as possible to enable the analysis to take place.

Reason:

Comparison and analysis of data relevant to the allegations must be completed in order to identify the veracity of the concerns raised by

N1466

SPCB3C are the only personnel able to provide the tech advice and ability to carry out the task.

Once this is secured and preserved, intel analysts must be used who are appropriately trained and experienced to do so.
