Title

TEAM 1 SIO SECRET POLICY DECISION - S17/01

Policy Text

TIMING OF APPROACH TO WITNESSES

Decision:

Previous decision making by me was to wait and harvest relevant information and data prior to approaching potential witnesses for fear of potential evidence either being tainted or destroyed.

We are moving toward being able to harvest that data but not quick enough.

Following receipt of further information from [REDACTED] N1466 we will now approach key personnel in order to obtain evidence.

There is risk that we may lose evidence but balanced against this and actually progressing the investigation, I am willing to risk it.

[REDACTED] N1785 is to be approached as a witness to understand the veracity of information he seemingly provided to [REDACTED] DSF and the [REDACTED]

[REDACTED] Op A

letter is to be recovered from the current CO [REDACTED] UKSF3.

Reason:

We are not progressing the enquiry in a manner commensurate with a murder investigation at present.

I accept there are unique conditions and different context here but I have directed that we take this course of action in order to move things forward and potentially bring alleged murders to a conclusion in terms of prosecution but also remove the possibility of further offences being committed.
