Title

SIO TEAM 1 SECRET POLICY DECISION - S269/01

Policy Text

DECISION: DATA RECOVERY - [REDACTED] ITS1

Correspondence from Gold detailing that SOI Info Coherence DSF [REDACTED] N2311 had agreed to provide 'relevant information for the investigation'. He had not entered in to debate with [REDACTED] N2311. Reminded Gold that [REDACTED] ITS1 as a whole was required as DSF have already explained that they cannot separate the AFG data required from other operational locations. A strategic decision is required about the full recovery of [REDACTED] ITS1. I have indicated on repeated occasions my decision at the tactical level with rationale as to why we need full recovery.

REASON:

Gold will account for his involvement. I have provided Gold and others within the strategic decision making process my decisions and rationale; it will be for them to decide on what to do in respect of [REDACTED] ITS1. PM(A) has accepted the IRT recommendations in which they advised their relevant data must be recovered as a priority. The only mechanism to do this is through full recovery of the [REDACTED] ITS1 system. This has been articulated clearly.
