Title

SECURING & PRESERVING OF EVIDENCE

Policy Text

Decision:

I am still unclear where key data / material sits. I must establish whether there are other repositories of potential evidence.

Currently I know that the following are where I can expect to recover evidence:

- SFHQ(A) Server - IT System 1 - Hard Copy Documents

In addition, there may be more - UKSF3, or whether their data is held on the IT System 1.

A 'site map' is req'd.

What will follow is the securing and preservation of that material and in some cases, where we have previously been unable to justifiably engineer contact with certain personnel, we will be in receipt of information that will enable us to do so.

Reason:

I need to know where the evidence resides.

By determining where this sits will shape my priorities and further policy / strategy in relation to evidential recovery.

What will follow is the ability to approach key witnesses / personnel.

To do so prior to understanding the above could lead to compromise of potential evidence and that of N1466.
